I am opposed to Texcom's injection wells for Montgomery County. Please review all the information pertaining to the injection wells. This is a residential area. There are approximately 505 abandoned oil wells in the 2.5 mile radius, which poses a very real hazardous situation. It could and probably would affect the water supply to 54 counties including The Woodlands and Houston. Thank you for listening to my concerns and fears for the county which I live and would like to continue to live in.
